Arkansas—Metropolitan Statistical Areas, Counties, and Selected Places

The term "Standard Metropolitan Statistical Area" (SMSA) has been changed to "Metropolitan Statistical Area" (MSA) as of July 1, 1983. Metropolitan statistical areas are designated and defined in a set of new standards prepared by the Federal Committee on MSAs. Under the new standards, an area qualifies for recognition as an MSA in one of two ways: if there is a city of at least 50,000 population, or an urbanized area of at least 50,000 with a total metropolitan population of at least 100,000. In addition to the county containing the main city, an MSA may also include counties which have close economic and social ties to the central county.

The map below and the tables that follow have been revised to reflect the new boundaries.

¹ Covered employment is employment subject to Arkansas Employment Security Law when an employer has one or more employees in each of 10 days during the current or preceding calendar year.

Employment excluded from coverage includes agriculture, self-employed, unpaid family workers, interstate railroads, domestics, insurance and real estate agents who are on commission only, and employees of churches and religious organizations, except schools.

² Starting in July 1973, state employment was brought into Arkansas' covered employment program, and in 1978 coverage was extended to city and county government employment (including public school employment). Thus, the 1980 and 1989 data are not comparable to the 1960 and 1970 statistics.

³ Counties will not sum to state total because state totals include data from employers who do not provide a county breakdown of employment and payroll, data of sales and other types of personnel with no permanent place of work, and employment data of employers with no established place of business in Arkansas.

¹Covered employment is employment subject to the Arkansas Employment Security Law when an employer has one or more employees in each of the 10 days during the current or preceding calendar year. Employment excluded from coverage includes agriculture, self-employed, unpaid family workers, interstate railroads, domestics, insurance and real estate agents who are on commission only, and employees of churches and religious organizations, except schools.

²Starting in July 1973, state employment was brought into Arkansas' covered employment program, and in 1978 coverage was extended to city and county government employment (including public school employment). Thus, the 1980 and 1989 data are not comparable to the 1960 and 1970 statistics.

³Counties that do not sum to state total because state total includes data from employers who do not provide a county breakdown of employment and payroll, data of sales and other types of personnel with no permanent place of work, and employment data of employers with no established place of business in Arkansas.
